

GREECE

Welcome everyone to our newsletter of the exchange at Greece which was held in May of 2015. We want to make you know about every single thing we were doing there: visits to greek temples, guide tours of museus of the city, learning a lot of the greek culture...

First day: Monday 11 of May 2015.

As soon as we arrived at the airport, we met our fantastic family host, and passed the first night at their home. The next morning we went to the 1st Junior High School of Markopoulo and visit it. We had the oportunity to take a class of maths in greek; it was so much fun!

After that, we went to visit some significant places of Markopoulo, such as the Panagiotou's Winery, where we tasted lots of types of cheese and learned about how they do the wine, and how they preserve it. We also visited the Nusery School and the 3rd Primary School, where the kids sang us some welcome songs.

After all this happened we came back with our host family to have lunch all together. They cooked us a typical greek food: some kind of rice mixed with different vegetables that was absolutely delicious!

In the afternoon we visited the temple of Poseidon at Sounio where we took some great pictures of the view befor have dinner at the house of our hosts.

Second day: Tuesday 12 of May 2015:

It was a really windy day, first of all we went to a place of archaeological and enviromental interest near "Mare Nostrum" the teacher's hotel.

Later we had an a guided environmental tour to Erasinios river. that way we saw the typical greek nature. Then we visit Vravona's Archaeological Site. That visit of the environment of Markopoulo was really interesting and nice to know.

Before the visit of the Archaeological Site we came back to Markopoulo and we have lunch with our lovely hosting family. The lunch was delicious and then at 16.30 we went to the Mare Nostrum Hotel with Methenitis family. There we expose the work we made in our school and the other countries made the same. We had the dinner in the hotel with all the familys and the students. It was a really great day. We enjoy it so much!

Third day: Wednesday 13 of May 2015

Really early we went to the school and we saw some classes. We went to the maths class and that way we saw how work the greek students. When the first class finished we took a bus to the Corinthian Canal. It was a beautiful place That canal divides the Peloponesus from the rest. One of our favorites visits was the next one, the visit of the Mycenae city, the mycenaean civilization was a really rich greek civilization and we visit the ruins of that beautiful ancient city.

Before that visit we went to Nafplio, a really cute city that was the first capital of Greece. We visit the castle of that city and then we went to an awesome restaurant of typicall greek food.

Forth day: Thursday 14 of May 2015

It was our last day and that made us get really sad because we made a really great firends there and we fell in love with that little greek town.

We went to the greek capital, Athens and we visit the Acropolis and the Acropolis's museum. Before that visit we cross all Athens to la Placa and we had lunch there. Later we had to say good bye because we were the first ones to go back to Spain. It was so sad and we start to cry because this experience was really beautiful.
